Aluminium Profile Cutting List

- All Cut Lengths should be provided in millimetres (mm). If more than 6 cuts per Bar of Profile are required, you may wish to contact us to verify the cut lengths will fit within the total bar length (allowing for waste from the saw cuts[§]). If you need further advice please contact us at sales@aluminiumprofile.com.au
- If ordering more than one length of the same profile type, please use a separate line of the worksheet for each Bar of Profile and the cuts required
- Please add more sheets if you run out of space.
- Unless specified, only off-cuts greater than 50mm in length will be returned to the customer as part of the order. Please note off-cut lengths may differ as the Saw Cut will consume some of the Profile.
- **We will cut to your dimensions only. Cut Profiles are not subject to a Return or Refund.**

Please tick this box if you would you like us to ship any off cuts that are less than 50mm in length

[§] Note – Our saw will cut to an accuracy of ±0.5mm. The saw blade will also consume some of the Profile, so Off Cut lengths are only an approximation
